

CHATAUQUA DELEGATION VISITS COUNCIL

Ask that Imposition of Tax Be
Reconsidered—Council Goes
Into Committee of the Whole
to Discuss the Question.

With the exception of receiving a delegation from the Chatauqua gunnison and what may have taken place at the star chamber of the regular meeting of the council last Monday evening was a very quiet one. Mayor Bost occupied the chair and the following councillors were present: Messrs. Lavine, Keats, Oakland, Ward, Broughton and Learmonth. After the reading of the minutes the delegation above referred to was heard. T. A. Hicks and W. H. Macdonald occupied the chair on behalf of the delegation. In their remarks they pointed out that the Chatauqua was in a class by itself. It was not an ordinary side show affair but a high class entertainment with educational value, a class of entertainment which should be encouraged rather than discouraged. It was being encouraged to come here by business men and rate payers of the town, and for fear of the district council, who are also ratepayers in town, any tax by the gunnison whose acts are endorsed by a large majority of the citizens of the town. The speakers requested that the council reconsider their action of the previous meeting when they decided to levy a tax of \$20.00 a day charged as a tax on this company.

Replying for the council the mayor said that the matter would be taken up later on and that attention would be paid to the remarks of the speakers when it was up for discussion. In his remarks the mayor expressed his sympathy for those who had been injured into signing the petition for the Chatauqua company. Mr. Hicks took exception to the use of the word "injured." He said the men who had signed were all of the full age, 21 years and were just as capable of distinguishing between right and wrong as any other class of men in the town or district. For any one to question the remarks of the mayor at a council meeting was a considerable loss to his Worship and in an endeavor to smooth the matter over he said he did not think the word "injured" had harsh a meaning as Mr. Hicks thought. To this Mr. Hicks retorted that it might be possible that he did not get his information from the same dictionary as the mayor, but according to his interpretation of the word it was quite out of place and uncalled for under the circumstances. The matter was left at this and the committee retired.

M. J. McHenry then appeared before council to complain of his town water supply. The returning officer who presided at the recent by-election, reported that as A. J. Learmonth was the only candidate nominated to fill the vacancy on the council caused by the retirement of G. Lyltatt, he had been elected by acclamation. Councillor Learmonth took the usual oath of office and was introduced to the council. He was placed on all the committees previously occupied by Mr. Lyltatt, except the finance committee.

Mr. Kitchin, Jr., was sworn in as assistant engineer at the pumping station.

The G. W. V. A. was given permission to erect a dancing pavilion in the town park, on motion of Councillors Oakland and Worts.

C. J. Greve and D. McLachlan were council asking their action to renew their pool room licenses. This session was given on motion of Councillors Lavine and Oakland.

The master of the Chatauqua tax was then introduced and on the suggestion of the mayor the council went into committee of the whole to deal with it.

As adopted at the last council meeting, but that the by-law be not enforced this year.

Councillors Keats and Oakland then spoke for their minds in view of the language and gave their opinion on some of the guarantors of the Chatauqua. These two councillors were opposed to the by-law that a tax should be exacted, notwithstanding that 98 per cent of the tax payers were opposed to it. The mayor again started in to give his view and after considerable time had been taken up by his words, Councillor Broughton interrupted him two or three times by asking what the council proposed to do. It was finally decided to adopt the mayor's first suggestion, although as the Chatauqua committee has no agent from the council, nor has the by-law been amended.

The matter of arranging a settlement in connection with the emergency hospital expenses during the flu epidemic was also taken up at this session but as the board of health was not present it was agreed to adjourn until Tuesday night and notify the board to be on hand at the next night session. Was another draw chamber one; and as the precaution of closing the doors was taken, we were obliged to leave that took place.

Pastor Comments on G.W.V.A. Meeting

At the last Sunday morning's service in the Presbyterian church, Dr. Hodge's address as it appeared in last week's Review. Not being present at the meeting at which the address was given, he felt it to be his duty as a citizen, as one interested in the welfare of the returned soldier and as one of the many who had suffered irreparable loss on account of the war, to make public expression of his opinion. Two weeks he said gave his estimation of the address of the president of the G. W. V. A. It was FRANK and it was FAIR.

He was pleased to note that the citizens and employers of labor who were present, expressed their sympathy and approval of the sentiments expressed. But the matter must not remain there. There should be its immediate action along the lines suggested in the address. If not the trouble will have been in vain so far as bettering conditions among returned soldiers is concerned. He thought the proposition to present a town lot to each returned soldier who would build there a good one. And this relation reads in his own words from "The Program of Reparation," in which it is stated that the government will provide the large sum of \$25,000,000 to be loaned through the provinces in order to encourage the building of workmen's houses.

Make Steel Fence Posts at Rolling Mill

Mr. Seltzer, manager of the Rolling mill here, has worked out a new idea in the line of fences which should go long way towards solving two of the farmers many problems. This fence is a ordinary barbed wire but the new idea is the posts which are made of angle iron with a point running diagonally down from the iron to hold the wire. The posts are driven two feet into the ground and make a solid practically permanent fence. Besides doing away with the necessity of constantly fixing up and replacing rotten posts these iron posts will also help to give the humble weed problem. With these posts there is no danger of the fence being so that as these weeds accumulate they can be set fire to and burned where ever they gather in the fence.

Naturally the cost of installing this class of fence will be considerably higher than the ordinary wooden posts, yet when, because, they are so well made and are concerned this will be nothing.

A sample of this fence is now on display at the company's grounds here and we would advise farmers to look it over when they are in town.

More automatic licenses have been granted in Alberta to date than throughout the whole of last year. In fact, the number last year's record is being rapidly reached.

Garden Party was A Great Success

July 1st was the day for the garden party held in the town park last evening under the auspices of the Ladies' Aid and the Presbyterian church. The park was attractively and comfortably fitted up for the occasion, and the additional lights, refreshment stand and platform gave the grounds the appearance of an up-to-date, busy summer resort.

The Redcliff band added to the program with a catchy tune and this was the signal for all to live up to the occasion. Following this there was an interesting program of athletic sports for young and old. These games most interesting to both contestants and spectators alike.

The following were the prize winners in the different events:
Girls 8 years and under—1st, Etta Arden; 2nd, Bruce Dunne.
Girls 14 and under—1st, Julia Schlimmer; 2nd, Stella Schlimmer.
Young ladies' race—1st, Ora Long; 2nd, Odell Olson.
Boys 14 years and under—1st, W. Rutherford; 2nd, J. Pedest.
Quarter mile race—1st, R. Stoner; 2nd, B. Stoner.
Boys 16 years and under—1st, R. Stoner and W. Kirkpatrick ran two heat races and they tested up for first and second prize.

Little girls race—1st, Irene Miller; 2nd, Emma Elden.
Little boys race—1st, P. Henderson; 2nd, G. Walker.
There was to have been a tug-of-war contest in which the Presbyterian church challenged the world, but the world took cold feet and the contest did not materialize.

The first of these dances will be held on the night of July 1st, and will commence at 9 p. m. and the second will be held on July 3rd after the league football match between the Medicine Hat Veterans and the Redcliff team. We have undertaken this project with a view to raising a fund for the first place to augment our funds and in the second place to live up to the locality. Our aim is to make Redcliff the center of its own amusements and to make it unnecessary to go to outside points for recreation. If you patronize us you will help us in this endeavor.

Good music will be provided and a refreshment booth, under the control of the Ladies' Auxiliary, will be maintained. The first dance is being held on the night of the 1st of July owing to the very many requests from the citizens who are not leaving town that day and because of the number of visitors which we expect, will attend the Boy Scouts sports.

Will the members of the entertainment and executive committees of both the Ladies' Auxiliary and the G. W. V. A. kindly take notice that a meeting of these committees will be held at the club rooms on Saturday, the 29th inst., at 8 p. m. A full attendance is requested.

Minnesota Town Swept by Tornado

A severe electrical storm and burst of rain broke the Sunday peace of Fergus Falls, Minnesota, and a moment later the full force of the storm swept up the principal business street, demolishing every building for a distance of three blocks, and leaving a trail of wreckage and ruins. Reports from Fergus Falls estimated the number of persons killed by the tornado which swept over that town all way from 300 to 400, and the injured at 700.

Pension Committee Suggest Increases

The special committee of the council to deal with pensions presented its recommendations to parliament last Tuesday morning. Additional expenditure for the present year on the basis of the existing number of pensions will be approximately \$2,500.

The report provided for a number of increases in pensions to soldiers and dependents, and last year's record is being rapidly reached.

According to figures last prepared by J. W. Mitchell, director of the Alberta provincial labor bureau, 6,285 men have been placed in jobs throughout the province since the first of the year.

Red Cross Society Has Good Record

A meeting of the Red Cross executive was held at the home of Mrs. Geo. Lyltatt last Tuesday afternoon for the purpose of attending to matters of importance in connection with the society.

As all against the society were in hand and as the officers reported that all goods previously on hand had been returned to headquarters, it was suggested that the business of the society be wound up for the present. After some discussion, however, it was found that this was impossible.

The secretary presented a number of accounts amounting to \$103.25, and the treasurer was instructed to have this amount collected.

A donation of \$17.80 from the Bowell auxiliary and another donation of \$2.00 were received with thanks. The treasurer's report showed a balance on hand of \$704.61, after deducting the amount for bills payable and a balance on hand of \$601.26.

The question of rendering assistance in defraying the emergency hospital expenses was brought up but it was decided not to do anything until the council had taken some definite action in the matter. A committee, consisting of Mr. Lyltatt, Mr. Harcourt and Mr. Stone, was appointed to wait on and take the matter up with that body.

To show what money had been collected by the society since its inception the treasurer submitted the following list:

Aug. 9, 1918, to end of 1918	\$18.55
For the year 1918	1,307.80
For the year 1917	2,447.50
For the year 1916	4,575.05
Jan. 1, 1915, to June 24, 1919	601.26
Total	\$8,721.46

Chatauqua Backers Meet to Organize

Guarantors for the Chatauqua company met at the hotel here for a week commencing July 23rd, met in the Review office last Friday evening for the purpose of organizing and making preparations for the coming event.

There was an exceptionally large turnout from the town and surrounding country and when the question of the action of the town council imposing a tax on the company was introduced, all expressed their regret and disappointment that the council had been so slow to take this step at this time.

The result was in the delegates were appointed to wait on the council to enter a protest and request that the matter be reconsidered.

After other preliminary arrangements were made the following officers were elected:

Secretary—A. N. Collard.
Treasurer—W. H. Hatcher.
Arrangements Committee—Messrs. D. McLachlan, G. Lemon, A. Lemon, and E. P. Argue.

DAUNTLESS COMPANY HOLDS ANNUAL MEETING

Farmer From All Parts of the Province Present—Plan for Future Development and Elect Officers.

There was a fairly good turnout of farmers from all parts of the province in attendance at the shareholders meeting of the Dauntless Manufacturing Company held here yesterday afternoon and evening.

After the reading of the minutes of the previous meeting, the presentation of the directors' report and the auditor's report, there was a general discussion of the business and future plans of the company. During the first part of the discussion there was some criticism of the management regarding some of the actions of the directors, but each line of complaint was taken up and explained by the directors it was simply another case of "those who came to see, remain." When these matters were satisfactorily disposed of the meeting got down to business and plans for the future development of the company were taken up. All present were enthusiastic over the future possibilities of this company and the fact that the province get behind it and gave it the support it deserved.

The following was the result of the election of officers:

President—D. W. Brown.
Vice-President—Thos. Irwin, Winborne.
Managing Director—J. L. Prout.
Consulting Engineer—Wm. McAllister, Esq.

Directors—Messrs. Thos. Lees, Oryen J. W. Snell, Oryen Thos. Hagel, A. G. Peile, Burdette, and T. Margat. Barn.

The directors met after their general meeting and were in session until well after midnight.

Appeal for Help For Scout Gathering

At the garden party last Wednesday evening T. A. Hicks, local scout master, took advantage of the occasion to address a few remarks to those present, on behalf of the Scouts. He reminded them of the district committee to be held here on Dominion Day from Scouts from all over this district would assemble here for their annual field day, and he appealed to the citizens in general to render every possible assistance in making the day a success. He explained that while the visiting Scouts were here they would be the guests of the town and that some provision should be made for their entertainment.

As the local Scouts were endeavoring to secure sufficient funds to enable them to take in the Scout camp at Banff in August he solicited the assistance of all in making this possible.

W.S. Stamps Saved Cyclone Sufferers

Many families whose homes were destroyed by the cyclones which recently swept over portions of North Texas and Oklahoma were saved from utter destitution by the War Savings stamps they bought last year.

Numerous letters from postmasters in the devastated districts are being received at district headquarters of the War Savings division at Dallas, telling how the amounts saved and invested in War Savings stamps actually kept families in their homes from starvation.

The assertion of the board of directors of the Calgary exhibition that they are presenting the greatest program ever given in the province is well supported by the list of exhibits and attractions which will be shown from June 28th to July 6th at Victoria Park, Calgary.

German Crown Prince Returns to Germany

Frederick William Hohenzollern, the former German crown prince, has escaped from Holland and made his way into Germany.

News of the escape caused a considerable stir in peace conference circles. While it is not felt that he is a figure of much importance in the reconstruction of the world, his return and the monarchism would gather enthusiasm, especially, nevertheless his act is regarded as an event of considerable significance in view of the other German recalcitrancy.

Sumner School For Teachers

The seventh session of the summer school for teachers to be held at the University of Alberta, Edmonton, under the direction of the Department of Education, will open on July 8th instead of July 2nd as previously announced.

In addition to the regular courses which have been offered in the past, several new ones will be given, including public school music, organized play, methods for teachers of non-English pupils, a course for principals, and consolidated schools and some academic courses leading to a degree.

Claiming from the number of applications which have been received, a large number will avail themselves of this opportunity of improving their professional standing.

It is now definitely announced that Sir Robert Borden will attend and address the big annual congress at Calgary on either August 15 or 16.

VOTERS' LIST.

For the past few weeks there has been appearing in this paper each week a synopsis of new legislation passed at the last session of the legislature, and also of changes made in hitherto existing laws. Among these are some of interest to both rural and urban districts. In this issue appears a review of the new legislation regarding the getting of names on the Voters' List. The law now is that husbands, wives, sons and daughters of property owners may vote on municipal affairs, provided their names are on the lists in accordance with the law.

We would advise our readers to look over this article carefully and govern themselves accordingly.

GET IT AGAIN.

Although the Chautauqua tax business appears to be settled for this year, and although it is evidently the intention of the present council to tax this class of entertainment in the future, this should not prevent any of our citizens who are anxious to have this elevating, educative class of entertainment come to our town, from taking the necessary steps to have the Chautauqua come here again next year if the Ellison-White Company intends to remain in the business.

At the end of this year there will be a municipal election and as the term of four of our present council expires at that time, it is just possible that the next council will not be so hostile to Chautauqua as the present one, and that the actions of the present one will be reconsidered.

A provisional agreement could be made with the company pending the action of the new council next January.

If the Chautauqua company were one that invaded our young men onto Ferris wheels, into wheels of fortune games, poker games or fan tan games, or various other devices to separate them from their hard earned money, or if they were selling squirrel whiskey in their tent, we would be the first to condemn it and advocate the sky as the limit for the tax. But it is not. With the exception of some of the members of the town council we have not met a single man, woman or child in the whole town and district who is not in sympathy with the Chautauqua movement. As we said before there are those who do not altogether agree with some of their business methods, but if there are business men who are willing and ready to overlook these methods and make themselves liable to contribute to the Chautauqua exchequer, just to get these elevating and instructive entertainments here, and encourage the community spirit, they should receive every encouragement.

We say by all means go ahead and make arrangements for a Chautauqua next year. Let the people rule.

In giving evidence before a commons committee the day after a shoe manufacturer said that women were willing to pay anything for fads in footwear. After this "facing" we imagine we hear the women say: "Well upon my 'sole'."

SUPPORT THE BAND.

The excellent concerts given by the town band lately have been a source of great pleasure to our citizens and many complimentary remarks as to their ability have been heard on all sides. We are told that prospects for a good band were never there, promising them they are at the present time. Although it takes time to blow a band instrument yet a band as an organization cannot be run in wind. This takes money and encouragement. The encouragement the band already has in the many good wishes and words of praise but at the moment financial assistance is necessary if our band is to continue to grow and prosper.

We are informed that it is the intention of the band to give periodical concerts and that at these concerts collections will be taken up. This will be one way our citizens may show their appreciation for the efforts of the leader, officers and men in the band, and since this is but another organization which is endeavoring to fill another gap in our needs for entertainment and pastime it should get our heartiest support.

For the benefit of our mayor we repeat the meaning of the word "inveigle" as given in a well known standard dictionary. It is as follows: "To lead astray as by deception of flattery; entice." While we admit that flattery and deception have led many people astray we cannot agree with the mayor that either of these means were used in getting the forty Chautauqua guarantors, any of whom is quite capable of filling a mayor's chair, to sign the necessary document.

To throw aside one's better judgement and join in with the crowd, just to be with the crowd whether right or wrong, is a sure sign of weakness. This is a mistake too often made in our governing bodies today. "Because right is right, to do right was wisdom in the scorn of consequence."

Our citizens are again reminded of the Boy Scout meet here on Dominion Day. Our boys are deserving of all the support we can give them. They will need some assistance from the parents and citizens generally in order to properly perform their duties as hosts on that day. Let us see that they get it.

It is marvellous how some people change as time goes by. A few years ago, yes a few short months ago, there were those among our ratepayers who rose to the surface in tongue slashing condemnation of the star chamber sessions of our town council. Today some of these critics are in "the seats of the mighty" and still we have star chamber sessions.

Star feeding experiments conducted on the Scott Experimental Station with a view to determining the possibilities of this side line on the grain farms of northwestern Canada, indicate this to be a profitable line of work: (1) to increase the farm revenue, (2) to furnish winter employment for hired help, (3) to apply fertilizer for the land, and (4) to turn into profit products such as straw and screenings that are now wasted on many farms.

FIRE DRIVES PEOPLE

FROM B. C. TOWN.
 After fighting for 24 hours forest fires which threatened to sweep the town, the inhabitants of Natal, B. C. were removed from the town in a special train early Sunday morning while a volunteer fire corps under Chief McLaughlin extinguished blazes after blazes within the town until the fire in the immediate vicinity had spent itself. No serious casualties are reported.

MUNICIPAL DISTRICT
VOTERS' LIST

Prior to the year 1917 the right to vote at an election for councillors for a municipal district was limited to the parties who were assessed for land. In the year 1917, however, the right to vote for councillors was extended to include the wives, husbands, sons and daughters of the persons assessed provided such wives, husbands, sons and daughters were twenty-one years of age and resident within the boundaries of the municipality. It was felt that the relatives of the owners or occupants of land were by their industry assisting both directly and indirectly in the progress and work of the municipality, and therefore it seemed only fair that they should have a right to say who they wished to carry on the business of the municipality.

The amendment to the Act, however, which made provisions for these parties voting, placed upon the secretary-treasurer the burden of finding out who the parties were that were entitled to vote because of their relation to persons who were assessed, and of entering their names on the Voters' List. It was found that it was impossible for a secretary-treasurer without a great amount of labor to make a complete list of these people. For example, sons and daughters of persons assessed are entitled to have their names placed on the Voters' List when they become twenty-one years of age, and when the secretary-treasurer was required to make up the list it was absolutely impossible for him to do so properly without obtaining a canvass of the entire district each year, inquiring as to when these parties became of age, and also as to whether or not they were resident in the municipality. This being the case it was felt to be unfair that such a burden should be placed on that official, therefore, at the last session of the legislature, the Hon. A. G. MacKay, minister of municipal affairs, introduced an amendment which has now become law, requiring all persons who are entitled to vote at an election for councillors, because of their being wives, husbands, sons or daughters of persons assessed, to register their names with the secretary-treasurer. All parties entitled to vote because of their relationship to a person assessed must make application to have their names placed on the Voters' List, otherwise they will not be able to vote at the election for councillors. Such application must be made to the secretary-treasurer of the district sometime between November 1st and December 31st both inclusive of each year, during the usual office hours. Application may be made personally by the person claiming the right to vote, or it may be made through the party on account of whose assessment an applicant claims the right to vote. All persons who are of the opinion they have the right to vote under this provision should therefore be careful to make application to have their names placed on the Voters' List as soon as possible, so that they may be able to cast their ballots at the next election for municipal district councillors.

Another amendment to the provisions of the municipal district act in connection with the Voters' List should also be noted. That is an amendment to section 88 of the municipal district act, which requires a copy of the Voters' List to be posted up at some central place in each polling division in the municipal district. As the act formerly stood, it only required that there should be a copy of the Voters' List posted in the secretary-treasurer's office. This was inconvenient, because it frequently meant a special trip of quite a few miles, if an elector wished to find out whether or not his name was on the Voters' List.

Unless the business of a municipality is controlled by an active and intelligent public opinion, there cannot be the results there should be from our municipal organizations. With the wisdom of the franchise and the making of laws or provision whereby parties entitled to vote may make sure that their names are on the Voters' List, there will be an incentive to greater interest being taken in municipal matters as one of the weak spots in rural municipal organization in the past has been the lack of interest on the part of the majority of the electors as to who should be elected councillors.

AMEND CANADA GRAIN ACT.
 Just before the noon adjournment last Tuesday the house of commons sent into committee on the resolution providing for amendments to the Canada Grain Act. Provision is made in the resolution for the constitution of a body to be known as the board of grain appeal, consisting of three members, who will hear appeals from decisions of the grain inspectors. It is also provided for the sale of a certain percentage of the surplus grain in elevators, and that to be applied towards the cost of administration of the Canada Grain Act.

THE SERBIAN TAMBURICA ORCHESTRA
 The Tamburica is the native instrument of the Serbians. Probably no foreign instrument brought to America in recent years has attracted wider attention than the Tamburica. It embodies some of the best features of the mandolin, the banjo and the guitar, but is distinctive from each of these in many respects. The range is almost limitless. In volume the music produced by the six players comprising the Serbian Tamburica Orchestra is equal to that of an orchestra of eight or nine players using other string instruments.

Marketing of

Poultry Products

Marketing has much to do with the success or failure of any poultry plant. No matter how successfully the plan may be run, if the marketing end of the business is not properly looked after the whole enterprise will sooner or later end in failure.

Every producer should get the best possible price for his products and to do this it is necessary to pay particular attention to their quality, and the season at which the products are sold.

EGGS—Eggs should be gathered regularly and often. All small and dirty eggs should be retained for home use or sold separate from the rest.

The eggs should be neatly packed, if for private trade, they are made more attractive if put into neat cartons.

The sooner the eggs are in the hands of the consumer the greater the satisfaction and consequently the better the price received.

The pallets should be early so that production will be heavy. If at any time during season the eggs become so plentiful as to cause a glut in the market, forcing down the price to the cost of production, it is often advisable to use a good preservative and put away the surplus for the period of scarcity which invariably follows.

TABLE POULTRY—Immediately following "the spring lay" the flock should be gone over and all "unsold" birds and those hens that show they intend to rest for the summer, should be put into crates and fed heavily for a week or ten days, then sent to market either live or dressed, according to market requirements. This culling should not all be done at one time but gradually, as occasion requires, but it should be the aim to get the culling-over with as far as possible before the time for marketing broilers, as the prices for fowl always drop after that.

Write the poultry division, Experimental Farm, Ottawa, for circular on the preservation of eggs and bulletin on the marketing of poultry products.

Cost per Bushel

To Grow Wheat

A very interesting subject of discussion before the war was the cost prior of a bushel of wheat, or the cost of an acre of grain.

Recently an attempt has been made by the International Farm congress to arrive at the average cost of producing wheat in four of the leading wheat growing states to the south, and the result is published in the Agricultural Review, the official organ of the International Farm congress. The figures published represent the average of careful estimates by several hundred representative farmers in Kansas, Missouri, Nebraska and Oklahoma. Blank forms were furnished these farmers upon which to make their estimates, divided into seven principal items making up the total cost, and the figures given represented wheat on the farm, with no allowance made for haul or other insurance, which in many sections is a protection almost amounting to a necessity.

The result of the inquiry is to establish the fact that if the average farmer in the winter wheat belt of the United States is favored with an average crop, his production cost per bushel is \$1.52 under present conditions, and \$1.68 under pre-war conditions.

Winnipeg is Scene

Of Desperate Riot

In a desperate street battle in Winnipeg arising out of the strike, one man was shot dead Saturday afternoon, more than thirty were wounded, one of whom has since died, and three hundred prisoners were lodged in the cells of the city police station.

The Riot Act was read and mounted police and military were called out in aid of civil authorities. Militiamen with fixed bayonets were under orders to keep Main street clear of pedestrians right from Portage avenue to the C. P. R. subway.

The killed are both foreigners named Mike Schudelick and Steve Schenker.

The heat of the battle occurred right on Main street in front of the city hall. The strikers, having previously given notice of their determination to parade, great throngs gathered upon the sidewalks on both sides of Main street. At 2:30 the parade began to line up, and the R. N. W. M. P., under Inspector Mead, acting under orders from Ottawa to prevent any parades in Winnipeg, cantered north on Main street and passed through the crowd.

The police charged the crowds again and again, and finally succeeded in restraining them to the side streets. Social police were then turned out to patrol the riot area from Portage to Higgins avenue on Main street. They were closely followed up by a squad of mounted police and Inspector Mead, in

charge, stopped every hundred yards to throw the riot act and warn everybody to be off the streets within thirty minutes or take the consequences.

Within the thirty minutes, a squad of cavalry, with sabre drawn, cantered down Main street, and in a short time afterwards a hundred machine guns appeared upon the streets, and the military with fixed bayonets, started in the patrol to preserve order.

The crowd spread out on either side of the city hall and into Market square. The mounted men ran at a gallop north on main from McDermott avenue, dashed around William and shared the Market square. As they rounded again onto Main street, the strikers were attempting to overturn a second street car. Missiles were thrown at the rioters, and at this stage Mayor Gray read the Riot Act from the front steps of the city hall and the police were ordered to use their revolvers instead of the baseball bats they had used up to that stage.

Canadian Fish

Have Food Value

A governmental analysis of the food value of certain Canadian fish has just been completed at Ottawa, and the Canadian Trade Commission believes that if the results were widely known there would be a much greater demand for the products of our waters rather than for the foreign brands of fish, which have merely a wider advertisement to recommend them.

The Trade Commission is omitting no occasion to point out the advantages of consuming Canadian produced food within the Dominion, both for excellence and for its undoubted cleanliness compared with imported classes.

Plans have been prepared in the provincial architect's office for three new farm schools to be built this summer at Youngstown, Raymond and Glenora.

Up No. 9. We will do the rest

We have the agency for Counter Check Books.
And, by the way, How About Your Subscription?

The Redcliff Review. Third Street

NEW TIME TABLE

FOR C. P. R. TRAINS

The following is the new schedule of the C. P. R. which goes into effect on June 1st, giving a list of the time trains pass through here after that date:

GOING WEST.

No. 3 leaves Redcliff 1:30 p. m.

No. 12 leaves Redcliff 10:50 p. m.

GOING EAST.

No. 4 leaves Redcliff 8:30 a. m.

No. 14 (Bag) leaves Redcliff 4:40 a. m.

This is railroad time, which means that anyone wishing to take a train should be at the depot one hour earlier.

ITEMS OF LOCAL INTEREST

Bathing suits for men, women and children at Gibson & Tupper.

Miss Jean Gray, of Calgary, spent last week end in town visiting her parents, Mr. and Mrs. Wm. Gray.

Hartley Dewar, M. P. P. for South Toronto, was elected leader of the Liberal party in the Canadian legislature.

Painting, calendering and light woodworking done at reasonable prices. J. A. Jardine, Fifth st.

Mrs. Morehead and family arrived in town last Tuesday and will reside here in future. Mr. Morehead is employed at the steel plant here.

The Athletics and Redcliff football teams meet here tonight in the cup tie series. Next Thursday evening, July 30th, Redcliff meets the Vets here in league game.

The Gouin government in Quebec was returned to power in the general election last Tuesday. The new legislature is made up of 70 Liberals, 9 Conservatives and 2 Laborers.

Genuine Panama Hats, imported direct, Gibson & Tupper.

Five residents in town have been subpoenaed to appear in court for disregarding the water by-law. They are to appear for driving over the sidewalks. Constable Everett is kept busy these days.

Redcliff boys are still returning from the front. Otto Hattner of Box Springs, returned this week. Geo. Abbott and Joe Lindsay are back in Canada but are at present in Calgary awaiting their discharge. Frank and Luther Clare have returned from Siberia but are still being detained in Vancouver. Their brother, Bob is still in Russia treating the Russians how to drive Canadian horses.

The open hearth furnace in connection with the Rolling Mill here has been making good progress lately and is now turning out an abundance of steel ingots. The company has a large government order and just as soon as the government inspector receives the finishing mill will be put in operation. At present the open hearth department has on hand about 250 tons of steel billets ready for the finishing mill to start on and everything is in readiness to work as soon as the inspector arrives.

J. Barrie, of Winnipeg, arrived in town last Tuesday to visit Colin P. MacLean, his old pal and comrade all through the great war. Since arriving in town Mr. Barrie has secured a position as timekeeper in the Brick & Coal plant here. Mr. Barrie is welcomed to Redcliff not only because he is a veteran of the Great War, but also because he is a football player of the first order and an enthusiastic worker in all lines of athletic sports. Both Mr. MacLean and Mr. Barrie were members of the Canadian football team which was champion of all the Allies in the series of games in France.

Don't forget to take in the dance on the open air pavilion at the park on the evenings of July 1st and 2nd.

Gosford Corsets at Gibson & Tupper's. There is no such thing as a substitute for a Gosford Corset.

The contract has been let for the building of the court house in Medicine Hat. It is expected that the building will be completed in the early spring of 1920.

Last Saturday a small cyclone passed over the Empire district. A house, in which a family named Icteron, was living, was blown to splinters and a five-year-old boy was killed.

Mrs. James Jardine, of Toronto, arrived in town last Tuesday to join her husband who is an old timer in Redcliff. They have taken up residence on Fifth street and will reside here in future.

"Alberta stands to gain substantially from the new trade in livestock and meat products as the outcome of several years' conditions overseas," says the Edmonton Journal, quoted by the Canadian Trade Commission.

Bedford Iron, say that all roads lead to the picnic grounds at Box Springs next Tuesday. Sign boards have been printed and distributed along the roads so that there is no danger of going astray.

L. M. Mansfield, formerly of the Harvest Vale district, is now located at Brandon and is in the employ of the C. N. R. Mr. and Mrs. Mansfield are both enjoying the best of health and wish to be remembered to old friends in Redcliff and district.

As a result of their canvass the prize committee for the Box Springs U. F. A. picnic are able to announce an exceptionally fine list of prizes for the different events. They met with great success on all sides. This picnic is to be held on the old picnic grounds on Dominion Day.

Mrs. Van Kaughn leaves tomorrow evening for Montreal from which place she will sail on the "Statensborg" for her old home in Thornhill, Scotland. It is Mrs. Van Kaughn's intention to spend the summer with her parents in the old land. Before leaving she was entertained at the home of Mr. and Mrs. P. Linton where a number of friends gathered to wish her God speed.

Last Friday evening Mr. and Mrs. Scilly got a pleasant surprise when three auto loads of their friends from Medicine Hat drove up to spend the evening with them. Among those present were: Miss Peterson, Miss Armstrong, Miss Reid, Miss Mack, Mr. and Mrs. McLeod, and the Misses Moir. A number of gentlemen were also in the party and a pleasant evening was spent in cards and dancing.

Although we have had several indications of rain during the past week, not enough to be of any help to the crops has as yet fallen. Severe electrical storms have threatened on all sides but only resulted in slight local showers. Crop are now beginning to suffer except in a few isolated cases where the local showers were heaviest. Unless we have a good soaking in the next few days the outlook will be none too promising.

CHILDREN EXCHANGE EGGS FOR STAMPS

Children of Verwood, Sask., whose chief "business" is raising hares and selling eggs to local dealers, have a new incentive. Messrs. Schommer & Bracey, general merchants, give their stamps instead of goods, as formerly. The children prefer these as groceries have little attraction, and they are learning the thrift lesson rapidly.
